

CAYDEN CAMPBELL

Business Analytics & Marketing | MSBA Candidate · Pepperdine Graziadio

caydencam9@gmail.com · (310) 913-4447 · [linkedin.com/in/cayden-campbell](https://www.linkedin.com/in/cayden-campbell) · caydencampbell-9.github.io · Los Angeles, CA

SUMMARY

MSBA candidate at Pepperdine Graziadio (4.0 GPA) with a background in marketing, mathematics, and economics. Combines statistical modeling, AI product development, and data-driven marketing strategy. In one academic semester: won a Tableau competition, delivered original research to a university board, built a Bayesian pricing engine across 456K records, and launched two live SaaS products. Seeking analyst, marketing analytics, product analytics, or consulting roles where technical rigor and business communication are both valued.

EDUCATION

M.S. Business Analytics (MSBA) — GPA: 4.0 · [Pepperdine University Graziadio Business School](#) 2025 – 2026

Coursework: Prescriptive Analytics, Python Programming, Managing Data, Decision Analysis, Statistics & Modeling, Forecasting, Descriptive & Predictive Analytics

- ▶ Iron Viz Data Visualization Competition — 1st Place (Pepperdine × Tableau/Salesforce, March 2026)

B.A. Business Management Economics · [University of California, Santa Cruz](#)

2019 – 2023

Minor: Technology & Information Management · Coursework: Statistics, Econometrics, Linear Algebra, Python Programming, Networking & Systems

ANALYTICS & PRODUCT PROJECTS

Meal Pricing Under Uncertain Demand · [Prescriptive Analytics](#) · [Pepperdine MSBA](#)

- ▶ Designed automation-ready weekly pricing engine across 77 fulfillment centers using 456K+ historical demand records
- ▶ Applied Bayesian Normal-Normal conjugate updating to blend managerial priors with OLS evidence; 400-run Monte Carlo simulation evaluated 4 strategies under uncertainty
- ▶ Recommended Strategy B: \$970M expected 10-week profit, \$943M P10 downside, 81.3% service level — strictly non-dominated after formal dominance screening; EVPI = \$9.27M
- ▶ Designed automation pipeline: weekly data pull → Bayesian posterior update → strategy engine → human override gate

University Social Media & Admissions Analysis · [Research](#) · [Board Presentation](#)

- ▶ Built 3-API pipeline (RapidAPI Instagram/TikTok + YouTube Data API v3) merged with federal IPEDS 2024 data across 51 universities using UNITID as join key
- ▶ Pearson correlation analysis: IG followers → yield rate $r=+0.530^{**}$, TikTok avg likes → applications $r=+0.500^{**}$ across 38 universities
- ▶ Identified Pepperdine at 87th percentile IG engagement but 13th percentile yield — gap quantified and presented directly to Pepperdine Graziadio board with 6 strategic recommendations

Consumer Purchasing Behavior — Iron Viz · [1st Place](#) · [Tableau/Salesforce Competition](#)

- ▶ Won 1st place analyzing Amazon consumer purchasing behavior across age demographics and purchase categories using Tableau Desktop
- ▶ Identified consumers aged 35–54 as highest-value segment; built interactive dashboard with reference line benchmarking, color-encoded segmentation, and drill-down by purchase period
- ▶ Judged on analytical depth, visual design quality, and business insight communication — competed against full MSBA cohort

OfferRead — AI Real Estate Deal Analyzer · [Live SaaS Product](#) · [offerread.ai](#)

- ▶ Built and launched full-stack SaaS platform delivering AI-powered investment verdicts on residential real estate deals — live with paying subscribers at \$12/mo Pro tier
- ▶ Integrated Rentcast AVM for live market valuations, Claude API for prescriptive deal scoring with confidence intervals, and Stripe for payment processing

- Engineered freemium model with feature gating; professor reviewed and validated concept — demonstrates end-to-end product thinking from data model to monetization

PROFESSIONAL EXPERIENCE

Marketing Coordinator · [ABC Internet \(Family Business\)](#)

Los Angeles, CA

- Lead multi-channel digital marketing across Google Ads, Facebook/Instagram, email (Mailchimp), SEO, and SMS — tracking performance through analytics dashboards
- Conduct marketing and sales analytics: analyze campaign and revenue data, build reporting dashboards, and translate data insights into budget allocation decisions
- Manage Shopify e-commerce operations: product merchandising, conversion optimization, and customer engagement

Marketing Assistant · [Studio Judy G](#)

Santa Cruz, CA

- Content strategy, website copy, email marketing, and social analytics for studio and gallery brand

Project Management Intern · [Get Virtual](#)

Santa Cruz, CA

- Digital marketing, website design, and business strategy for local SMB clients in real estate and retail

SKILLS & TOOLS

Statistical & Analytical: Python (Pandas, NumPy, scikit-learn, SciPy), R, SQL, Bayesian Inference, Monte Carlo Simulation, OLS & Logistic Regression, Conjoint/MNL, Linear Programming, Forecasting (time series, demand modeling), Descriptive & Predictive Analytics, EVPI, Decision Analysis

Visualization & BI: Tableau, Matplotlib, Plotly, Streamlit, Excel (Solver, Pivot Tables, Monte Carlo), Google Colab, Spyder, VS Code

AI & Product: Claude API, ChatGPT, prompt engineering, React, TypeScript, Node.js, Git, GitHub, Stripe, REST APIs, Replit

Marketing Analytics: Google Ads, Facebook Ads Manager, Mailchimp, SEO, Shopify, A/B testing, campaign ROI analysis, QuickBooks, Adobe Photoshop, Video Editing
