Marketing Analytics · Growth Analytics · Business Analytics

caydencam9@gmail.com · (310) 913-4447 · linkedin.com/in/cayden-campbell · caydencampbell-9.github.io · Los Angeles, CA

SUMMARY

Marketing coordinator and MSBA candidate (Pepperdine, 4.0 GPA) with three years running campaigns across Google Ads, Meta, email, and Shopify. Comfortable on both sides of the work: launching the campaigns, and building the dashboards and reports that show what is working. Strong with Tableau, Excel, SQL, and Python on the analytics side. Looking for marketing analyst, growth, or CRM roles that use both.

CORE SKILLS

Campaign Analytics · Marketing Dashboards · Reporting and KPI Tracking · Customer Segmentation · A/B Testing · Revenue Analysis · Google Ads · Meta Ads · Mailchimp · SEO · Shopify · Tableau · Excel · SQL · Python

PROFESSIONAL EXPERIENCE

Marketing Coordinator, ABC Internet

Los Angeles, CA · Sept 2023 to Present

- Plan and run paid and organic campaigns across Google Ads, Microsoft Ads, Meta, Pinterest, email (Mailchimp), and SMS, setting budgets, audiences, and messaging by channel.
- Build the weekly and monthly marketing reports the business uses to set budget, pulling campaign spend, web traffic, Shopify sales, and revenue into dashboards and Excel.
- Track KPIs like CTR, conversion rate, ROAS, and revenue by channel, and flag underperforming channels and new opportunities.
- Run the Shopify store day to day (merchandising, promotions, product updates) and use Shopify analytics to read customer behavior.
- Test subject lines, audiences, landing pages, and offers across email and paid social to lift engagement and conversion.

Marketing Assistant, Studio Judy G

Santa Cruz, CA · 2022 to 2023

- Owned content, website copy, email marketing, and the newsletter for a studio and gallery brand, and tracked email and social performance to adjust messaging.

Project Management Intern, Get Virtual

Santa Cruz, CA · 2023

- Handled digital marketing, website design, and social media for local real estate and retail clients.

SELECTED ANALYTICS PROJECTS

University Social Media and Admissions Analysis, [Marketing Research](#), [Board Presentation](#)

- Tested whether a school's social media following relates to how many admitted students actually enroll, across 51 universities. Pulled three social APIs plus federal data; Instagram following correlated with yield at $r = +0.53$.
- Showed Pepperdine has high engagement but low conversion (87th percentile vs 13th) and presented six recommendations to the Graziadio board.

Airbnb Promotion Targeting, [Marketing Optimization](#)

- Worked out which 25% of 45,585 listings to promote on a fixed budget. Targeting by occupancy beat picking at random by about 11% more expected bookings, with no extra spend.
- Compared three targeting approaches and checked how the results held up across different assumed lift rates.

Consumer Purchasing Behavior, [1st Place](#), [Iron Viz \(Tableau/Salesforce\)](#)

- Won first place in a Tableau competition analyzing Amazon purchase behavior by age group; the 35 to 54 segment came out as the most valuable.
- Built the interactive dashboard, judged on insight, design, and how clearly it told the story.

[OfferRead.ai](#), [AI Real Estate Deal Analyzer](#) · [Live SaaS](#) [offerread.ai](#)

- Built and launched OfferRead.ai, a SaaS tool that analyzes residential investment properties and returns a buy-or-pass recommendation in under a minute using live market data and AI-generated reports.
- Reached 2,000+ site visitors and 5 paying subscribers in the first 10 days, built on Rentcast property data, the Claude API, and Stripe subscriptions.

EDUCATION

M.S. Business Analytics, Pepperdine Graziadio Business School

4.0 GPA · 2025 to 2026

1st Place, Iron Viz Data Visualization Competition (Pepperdine x Tableau/Salesforce, 2026)
